ORACLE DATABASE ADMINISTRATOR

Location: Radford, VA

Security Clearance: DOD Interim Secret as a minimum

Citizenship: US

Experience: A minimum of 5 years of experience as an Oracle Database Administrator in a UNIX/Oracle environment.

Required Certifications:
1. CompTIA Security+
2. Oracle Certified DBA Professional preferred
3. Computing Environment (CE) Certification (Oracle or SAP) – can be waived for 90 days after project join date.

Position Requirements

Oracle DBA: This full-time Oracle database administrative position will challenge the candidate to expand their skillsets and learn new technologies in a fast-paced and friendly environment. The successful candidate remains up-to-date on vendor technologies and recommended best practices in a highly-available, enterprise environment.

Average 40 hours per week with on site and telework options.

Required Skills
- Five or more years of experience (including design, installation, configuration, administration, patching, upgrades, tuning, backup and recovery, and troubleshooting) with the Oracle Enterprise Database in a UNIX environment on physical and virtual servers
- Oracle 11gR2, 12cR1 including Multitenant, RAC, DataGuard, Grid Infrastructure, Oracle Automatic Storage Management (ASM) and Oracle Automatic Storage Management Cluster File System (ACFS)
- Strong backup and recovery experience using Oracle Recovery Manager (RMAN) with Veritas Netbackup
- Strong security experience including data-at-rest and over-the-wire encryption using pkcs12 containers
- Strong performance tuning experience for both transactional and analytical workloads
- Strong troubleshooting experience utilizing database and operating system capabilities
- Strong shell scripting and PL/SQL experience
- Strong system administrative experience
- Strong documentation skills
- Strong interpersonal skills
- Participates in a 24x7 on-call support rotation

Desired Skills
- Databases: Oracle 12cR2, MySQL, PostgreSQL
- Platforms: Linux x86-64 with SELinux, Solaris SPARC

- Engineered Systems: Oracle Database Appliance
- Middleware: Oracle Weblogic 11g and 12c, Oracle Business Intelligence 11g and 12c, Oracle Application Express, Oracle REST Data Services, Oracle Forms and Reports, Informatica PowerCenter, Apache Tomcat
- Web: Oracle HTTP Server (OHS), Apache
- Working knowledge of DoD Security Technical Implementation Guides (STIG) and Security Requirements Guides (SRG)
